EDITOR CLEAGE LIKELY TO BE CHOICE FOR SENATOR

HONOR DECLINED BY MANY TO WHOM OFFERED.

**Well-Known Democrat Said to
Be Willing to Accept, So Party
Will Not Be Unrepresented.**

The consensus of opinion is that the democrats of Hamilton county, who meet tomorrow at 12 o'clock in mass convention will nominate W. B. Cleage, editor of the Hamilton County Herald, an ex-member of the legislature and several times a candidate for sheriff, as successor to Col. Ed Watkins, who Saturday retired as the democratic nominee for the state senate. The predictions are that when the meeting is called to order Senator James B. Frazier will be elected chairman. Mr. Cleage, when asked regarding the race stated that he did not want to be a candidate for office and was out of politics. He stated that he had been to see, together with others, a number of leading democrats in an effort to have them accept the nomination but they had all refused. However he said that rather than see the nomination go by default, he would take it, though it would be a great sacrifice to him. He mentioned the names of J. Lon Foster, W. E. Cleage, Judge Joe W. Williams and others he had tried to get to accept the nomination, but they had all refused. In order to get the name of the choice of the meeting tomorrow on the official ballot it will have to be done by petition as the time for qualifying has closed and, in fact, no party nomination can now be made, the candidate put out being in the status of an independent.

A number of friends of Mr. Cleage are somewhat doubtful as to his ability to poll the labor vote, saying he is not as strong as Hudlow, but others say he still has some friends among the unions and this, together with the strong country vote he has always been able to command, he could be elected. Another fact concerning Mr. Cleage's race is that he will have a number of influential democrats for him in this race in the old organization, that have heretofore opposed him, and perhaps some newspaper support. Mr. Cleage seems to be the choice and unless an eleventh hour dark horse enters he will receive the endorsement of tomorrow's meeting, if any action is taken.

Second to the nomination of some one for the state senate, the topic of conversation is the controversy between E. M. Hudlow and A. Emerson, caused by Mr. Emerson stopping Mr. Hudlow's nomination for the senate on Saturday. It was remembered that Mr. Hudlow would have received the nomination by acclamation had not Mr. Emerson arose and told the meeting that Mr. Hudlow couldn't win and the legislative ticket wanted a man for state senator who could win and help the lower house ticket. Mr. Emerson has no reason to regret that Mr. Hudlow would have proved himself a defeatist to the labor vote. Mr. Hudlow denied this and asked Emerson where he got that idea and was told that he had merely heard general rumors that Mr. Hudlow was not strong with the working man. It was rumored Monday

**How to Banish
Wrinkles Quickly**

If your face is disfigured with wrinkles, no matter what the cause, you can quickly dispel every line, even the most obstinate, by using a simple, home-made wash lotion. Merely dissolve an ounce of powdered anhydrous zinc in a pint of witch-hazel— inexpensive ingredients found in any drug store. Bathe the face in this, and— presto!—you scarcely believe your own eyes when you look into your mirror and behold the marvelous transformation! The remarkable astringent action of the anhydrous zinc tightens the skin, wrinkles are literally pressed out. Best of all, this result is not purely temporary, for the lotion also has a healthful tonic action, which tends to strengthen and tone up the weakened tissue, and added benefit may be expected with continued use. Use this once a day for awhile; it cannot injure the most delicate skin. The treatment itself leaves no trace—no one suspects your secret of your increasing youthful appearance.—(Adv.)

sell my Dry Goods stock
below cost.
305 East Ninth St.

that the friends of Mr. Hudlow resent the statement of Mr. Emerson.
The idea of the endorsement by the democrats of Finney Carter, the republican nominee for state senator, means means dropped, and a number of leading democrats openly favor it. It is said by the republicans that politics is "adjoined" has been and was in the past election the slogan of the democrats, and why shouldn't it be now? Several party leaders stated that no democrat could be elected, and to avoid a bitter fight, the democrats should endorse Carter and the republicans should endorse the democratic nominee for lower house. The outcome, however, will be awaited with interest, and something interesting is promised in the result.

REGISTRARS WILL MEET AT COURTHOUSE TUESDAY

**To Receive Full Instructions for
Their Big Day's Work
on Sept. 12.**

Tuesday morning a school of instruction for the registrars who will serve on next Thursday will be held in the circuit courtroom at the courthouse at 10 o'clock. The registrars are under orders and are commanded to be present.

Attorney R. H. Williams will explain to the registrars how to fill out a registration card. At this meeting everything connected with the registering of those between 18 and 45, inclusive, will be explained and the registrars will know their duties exactly. The legal advisory boards of the various exemption boards are beginning to organize for the task of filling out the questionnaires. The following notice has been sent to a number of lawyers designated associate members of the advisory board:

You are an associate member of the legal advisory board serving local board No. 1 (division No. 1), Hamilton county, Tennessee, of which Dr. W. M. Hogart is chairman. This board comprises all territory in Hamilton county which is north of the Tennessee river. You have taken the oath required and you are now, to all intents and purposes, in the service for the work prescribed by S. E. R. sections 30 and 45.

If for any good reason you will be unable to serve during the latter part of September and October, we should be at once advised in writing. As soon as the dates for mailing questionnaires are determined we shall advise you the days you are to serve. The work will take more time than in last December, and January, possibly as long as six days of your time in all.

This is a serious and important obligation and we urge you to treat it as such.

The time for instruction, the place of work, the questionnaires and the schedule of service will be brought to your attention later.

E. WATKINS, Chairman.
W. G. M. THOMAS,
JOHN A. CHAMLISS, Secretary.

TWO WOMEN TRY TO WHIP PROVOST GUARD

**"Wild Women" Tear Shirt Off
Policeman Who Comes to
Soldier's Rescue.**

Carrie Rhorbach, wife of a soldier in France, is very unkind.
An inmate of the Florence Crittenton house, she was granted the privilege Sunday afternoon of visiting a "sick" sister. As a precautionary measure, a provost guard at the home accompanied her. All went well until it came time to return to Carrie's quarters. Business then picked up with such a rush that the provost guard found himself unable to cope with the situation. The two women fought like tigers and were getting the best of most of the rounds, when a lieutenant and some privates came to the guard's assistance. He had already received a black eye. By that time a large crowd had gathered at Sixth and Cedar streets, where the excitement reigned, and there was still a considerable amount of fight left in the women when the police patrol, in charge of Patrol Driver Louis Minor and Patrol Guard George Webb, arrived.

Carrie Rhorbach proceeded to start the job of whipping "Uncle" George, but soon discovered that such was a hopeless undertaking. She did tear his shirt practically from his body, however. When calm reigned again Carrie was suffering from a black eye. Carrie and her sister, Fannie Leffer, were arrested and charged at police headquarters with public profanity and disorderly conduct.

It was stated that the Leffer woman is married and her husband is a sergeant at Fort Oglethorpe.

DOCKET CLEARED OF VAGRANCY CASES

Thirty-five or forty cases of young women charged with vagrancy were disposed of in various ways in the criminal court Monday morning. Those present besides Atty.-Gen. George W. Chamlee, Assistant Atty.-Gen. W. F. McLaughy and Judge McKeeney were the United States health officials and the provost guards. The cases were the United States health officials' juries of the women were sent back to the Florence Crittenton home until they are cured of the various diseases they are charged with having. Gen. Chamlee stated he was anxious to have the cases off the docket and as the result had the women all brought into court Monday and the cases finally disposed of.

Chamberlain's Cough Remedy.

This is not only one of the best and most efficient medicines for coughs, colds, croup and whooping cough, but is also pleasant to take, which is important when a medicine must be given to young children. Chamberlain's Cough Remedy has been in use for many years and has met with much favor wherever its good qualities have become known. Many mothers have given it their unqualified endorsement. Wm. Scruby, Chillicothe, Mo., writes: "I have raised three children, have always used Chamberlain's Cough Remedy and found it to be the best for coughs, colds or croup. It is pleasant to take. Both adults and children like it. My wife and I have always felt safe from croup with it in the house." Chamberlain's Cough Remedy contains no opium or other narcotic.—(Adv.)

TELEGRAPH MESSENGERS WALK OUT ON STRIKE

For the second time in one month, messenger boys in the employ of the Western Union Telegraph company have gone on a strike and the clerks in the office of the company were forced to deliver messages today in order that the service might not be materially damaged.
The boys this morning presented to Manager Posey, of the local office, a petition in which they voiced a protest against the change in the schedule of wages which has been inaugurated here. On Sept. 1, the officials of the company put into practice a system whereby the boys are to be paid according to a zone system. "Boys are now being paid according to the distance which they have to carry a message instead of being paid a flat rate for each message as has been the practice."
Mr. Posey stated this morning that he did not expect to put the boys, who struck, back to work.

QUIET SUNDAY BUT SOME "BOOTLEG" RIDES

**Crafty Motorist Motored Part
Way Into Town—Another
6,000 Gallons Saved.**

Things were different in Chattanooga yesterday from normal Sundays, and even from Sunday a week ago, when a few automobiles buzzed about despite the request from Washington that car owners help win the war by cutting down on the consumption of gasoline. What cars were out Sunday were very cautious about their routes and avoided the conspicuous places. On some of the outlying thoroughfares, however, joyriders were still to be seen, and though in many instances they were jeered as they sped on undaunted.

On the Dry Valley road, residents of that neighborhood spotted some fifteen or twenty cars during the day. A very cozy practice that was indulged in by some of the East Lake, Highland Park and Ridgedale car owners was to run the car part way into the city, then turn around and head for park at some inconspicuous place just off Eleventh, walking the remainder of the distance into the business center. Among the car numbers that were spotted in this heat of the moment were the following: 23785, 27426, 22344, 24532, 22581, 23226, 90304, 76219, 27393, 23298, 23045, 22673, 24611.

Probably a number of these will have creditable alibies, but the cars bearing these license tags were seen in action Sunday.

Street cars were jammed the greater part of the day and the result of many automobile owners complying with the official with the government request. The parks and outlying resorts felt the pinch of autoleless Sunday, but few complaints were heard.

It is estimated that Chattanooga saves 6,000 gallons of gas for Uncle Sam by putting the cars aside for one day in the week. An appreciable conservation is also reported by gas dealers brought about by a limited use of cars through the week and the elimination of useless joyriding.

Chief Deputy "Billy" Smith had an amusing experience and was greeted by a crowd who called him "blackie." The officer had been up all night trying to locate a badly wanted negro, and when he came into McCallie avenue early Sunday morning he was surprised to find a crowd of people under the head of essential occupations and he didn't mind the jeering much. The feature of the day was the number of horses and buggies seen about the street.

FUEL ADMINISTRATOR FIXES COKE PRICES

**\$4.50 to \$6.50 Per Ton, Ac-
cording to Size of Screen-
ing—Now Effective.**

A new order has been issued by the United States fuel administration establishing maximum prices for gas coke. These prices were effective Aug. 1, 1918.

The order reads that in localities where anthracite coal is not obtainable by dealers under the distribution plan of the fuel administrator, and in those localities where anthracite is not in general use as a domestic fuel, the maximum price of each grade of gas coke per ton of 2,000 pounds f.o.b. cars at the plant shall be the base price for such grade plus the lowest published coke freight rate to such point from any beehive coke district.

The base price given in the order is as follows: Run of retorts, \$5.50; run of retorts screened above 3-4-inch size, \$6.00; prepared sizes of 3-4-inch size, \$6.50; prepared sizes below 3-4-inch size, \$4.50.

Where anthracite coal is obtainable the regulations provide that the maximum price of various grades of gas coke per ton of 2,000 pounds f.o.b. cars at the plant at which it is produced, sold to dealers for distribution in less than carload lots, or delivered for distribution in less than carload lots, or delivered to consumers direct for household purposes, shall be as follows: Screened and sizes above three-quarter inches, the same price as that established by the fuel administrator for stove anthracite, f.o.b. cars at the mines in that district which takes the lowest railroad freight rate to the plant, where the coke is produced plus the freight rate.

Run of retorts screened above 3-4-inch, 35 cents, less than the price of anthracite plus the freight rate, and the retorts not screened 75 cents less than the price for anthracite plus said freight rate.

The order further provides that the maximum price per ton of 2,000 pounds f.o.b. cars at plants for breeze shall be one-half the price established by the administrator, where such breeze is produced. The term "breeze coke" shall include all small coke that is left after loading coke into cars by means of forks if shipped without further screening or sizing; any portion of this coke left after removing prepared sizes; any undersized coke that is left after removing the metallurgical coke, the foundry coke or the prepared sizes by screening.

The maximum prices mentioned in the order apply to car lots sold to consumers or to dealers for wagon delivery; any commissions paid to selling agencies, or margins allowed to jobbers shall be paid by the vendors, and shall not be added to the prices established.

MORE THAN 100 ENROLLED FOR BAYLOR SCHOOL

Over 100 names have already been enrolled for the Baylor school, and fully 125 are expected to be on hand at the opening of the school Wednesday morning. On account of the large enrollment, the local boys are to report Tuesday morning at 9 o'clock for classification.

A number of states will be represented among the out-of-town students. Carlos M. Castro, who is expected to attend the city Wednesday, is coming all the way from his home in Merida, Yucatan, Mexico, and is said to be unable to speak English. Baylor school was selected by his family on the strength of the Spanish department.

Owing to the call to the colors by former members of the faculty, this year's catalogue includes several new names as members of the family. Prominently among these is the name of Maj. Wilbur S. Young, B. S. degree from Vanderbilt, who will serve as military instructor and will in addition have the chair of English. The school has ample grounds for drilling and the guns for this course of instruction have already arrived.

Prof. Payne, B. A., Randolph-Macon, will be instructor in science. The new laboratory for physical and chemistry has been pronounced by educators as unequaled by any prep school in the south. Prof. Nixon will be the instructor in mathematics. He holds a B. A. degree from Davidson college and can speak Spanish. Prof. Foster, whose name appears on the faculty list for the first time this year, will have the chair of modern languages. He holds a B. A. degree

**Children Ory
FOR FLETCHER'S
CASTORIA**

from the University of Virginia.
Rev. Forsyth, B. D., of Sewanee, will teach the Bible, and hold the chair in history. With the exception of Dr. Forsyth, all of the instructors will occupy quarters at the school.

Prof. J. Roy Baylor, a graduate of Virginia, and founder of the Baylor school, will continue as headmaster and will hold the chair of Latin and Greek.

LIEUT. FOSTER V. BROWN STILL ALIVE AND WELL

**Report of His Death in Action
Proves Untrue—Much Re-
joicing Over News.**

The many friends of Lieut. Foster V. Brown, Jr., will learn with a great deal of gratification that the report regarding his having met death on the battlefields of France was erroneous. In a letter written to a friend and received in the city Saturday afternoon Lieut. Brown stated that he was well and happy and was in special command of his company. He said that he had been in the hospital suffering from a slight wound, but had recovered entirely from this injury. The letter from Lieut. Brown, however, confirmed the death of Lieut. James C. Loder, Lieut. Brown saying that Lieut. Loder died a gallant death.

Foster V. Brown, Sr., was notified immediately regarding the letter and Saturday night and Sunday his home was called innumerable times by friends joining in the rejoicing that his boy was alive. The first notice regarding Lieut. Brown came in a letter written by a young man from Harriman, who said that he had seen Lieut. Brown fall. This, however, seems to have been when Lieut. Brown was injured in the leg and the young soldier, seeing him go down, thought he was killed. However, his mission was completed and he didn't mind the jeering much. The feature of the day was the number of horses and buggies seen about the street.

YOUNG SOLDIER NOW CONVALESCING

F. R. Springs, deputy in the office of Tax Assessor Randolph Hovick, received a letter from his brother, Charles E. Springs, who is stationed with the military police at Greenville, S. C. The letter states that the young soldier has recovered from a severe attack of bronchitis, from which he had been suffering for several months. The letter stated Mr. Springs will probably go across at an early date. He asks that his friends write him postoffice box 821, Greenville, S. C.

The Horrible Handicap of Poisoned Blood

**The Innocent Suffer Even Unto
the Third and Fourth Genera-
tions, but Relief Is Now
in Sight.**

It has long been accepted as a matter of course that the sins of the fathers must be suffered by innocent posterity, yet it is hard to become reconciled to this condition. The heritage of physical infirmity is a handicap under which thousands must face the battle of life. Scrofula is probably the most noticeable of the transmitted blood diseases, though there are other more severe diseases of the blood that pass from one generation to another. No matter what inherited blood taint you may be laboring under, S. S. S. offers hope. This remedy has been in general use for more than fifty years. It is purely vegetable, and contains not a particle of any chemical, and acts promptly on the blood by routing all traces of the taint, and restoring it to absolute purity.

Some of the most distressing cases of transmitted blood poison have yielded to the treatment of S. S. S., and no case should be considered incurable until this great remedy has been given a thorough trial. S. S. S. acts as an antidote to every impurity in the blood. You can obtain it at any drug store. Our chief medical adviser will take pleasure in giving you without cost any advice that your individual case requires. Write today to Swift Specific Co., 423 Swift Laboratory, Atlanta, Ga.—(Adv.)
